

Appleton is our premium line of industrial electrical products under Appleton Group, a business unit of Emerson.

Emerson brings integrated manufacturing solutions to diverse industries worldwide. Our comprehensive product line, extensive experience, world-class engineering and global presence enable us to implement solutions that give our customers the competitive edge.

For over 150 years, our electrical product brands have been providing a rich tradition of long-term, practical, high quality solutions with applications ranging from the construction and safe operation of petrochemical and process plants to providing quality power that precisely controls automotive robotic production.

Engineers, distributors, contractors, electricians and site maintenance professionals around the world trust Emerson brands to make electrical installations safer, more productive and more reliable.

Appleton Group is organized into three focused businesses that provide distributors and end-users expert knowledge and excellent service.

**Electrical Construction Materials**

This group is made up of the Appleton and O-Z/Gedney brands. They manufacture a broad range of electrical products including conduit and cable fittings, plugs and receptacles, enclosures and controls, conduit bodies and industrial and hazardous lighting. Whether the application is hazardous location, industrial or commercial, the electrical construction materials group has the products to meet your needs.

**Power Quality Solutions**

The SolaHD brand offers the broadest power quality line, including uninterruptible power supplies, power conditioners, voltage regulators, shielded transformers, surge protection devices and power supplies.

**Heating Cable Systems**

This group is made up of the EasyHeat and Nelson brands. They offer a broad range of electrical heating cable products for residential, commercial and industrial applications.

**TRUST APPLETON'S ATX LINE OF PRODUCTS TO PROTECT PEOPLE, FACILITIES AND PRODUCTIVITY.**

Appleton products help create peace of mind in the hazardous location workplace – whether it's a petrochemical plant, a power plant, pulp and paper mills or any industrial location. Our products help ensure operations maintain maximum productivity and safety. Our worldwide presence demands mastery of the International Electrotechnical Commission (IEC), ATEX Directive and the North American (NEC/CEC) rules and a full product line for every application throughout hazardous locations.

Appleton's offering of hazardous location products include the ATX line of products which are manufactured to meet IECEx and ATEX requirements. Choose from a vast breadth of Flameproof and Increased Safety products that meet rigorous Zone 1-2 and 21-22 ratings – from lighting to plugs and sockets to junction boxes, panelboards, control stations and cable glands. Our engineers have developed innovations across all products, making Appleton the premier global provider of electrical products for use in IEC and ATEX locations.
